

Get your FITech-badge!

You need an Open Badge Passport account in order to apply for a badge. All the badges you earn will be stored in your account and you can then share the badges e.g. in your LinkedIn profile.

Please note that you can get a badge only after the credits of the course have been registered to the study register, so there might be a delay after you have completed the course (passed the exam, received the grade). **Apply for the badge only after your credits have been registered to the study registry of the organizing university. The applications are processed usually once per month.**

Please find below instructions for how to create an Open Badge Passport account and how to apply for a badge.

1. Create an Open Badge Passport account

- Go to <https://openbadgepassport.com> and create a user account.
- You can collect many badges to the same account.

2. Apply for a badge for a course that you have completed

- You can find all available FITech badges through the “Explore” menu. Choose “Earn badges” in the sidebar on the left. You can search for a badge by its’ name by first choosing the “Show advanced search” option and then using the “Badge name” field. The badges have been created in the teaching language of the course.

Sometimes the search works better when using other than the first word of the course name.

The screenshot shows the Open Badge Passport website interface. At the top, the navigation menu includes HOME, BADGES, PROFILE, EXPLORE (circled in red), and CONNECTIONS. The main header reads "Explore / Earn badges ?". On the left sidebar, "EARN BADGES" is circled in red. The search area includes a "Country" dropdown set to "Finland", a "Hide advanced search" button (circled in red), a "Keywords" dropdown, and a "Badge name" search field containing "programming" (circled in red). Below these are "Earner" and "Issuer" search fields, and an "Order" section with radio buttons for "by date modified" (selected), "by name", "by issuer name", and "recipients". A checkbox for "Show only favourites" is also present. At the bottom, four badge cards are displayed, each with the FITech logo and a "Get this badge" link. The cards are for "Secure Programming", "Programming 2: Structures", "Functional Programming 1", and "Web Development 1 - Programming".

- Click on the badge of the course you’ve completed. Please note that if the course name is long then you might not see the full name in this view. Make sure that you’ve chosen the badge of the correct university. You will see the full name and the course description when clicking on the badge and a new window opens. In this window, choose “Apply for this badge” on the left. In case the badge has already been granted to some people then you first need to move to the “Get this badge” tab and you will then see the link.

HOW TO GET THIS BADGE

FITech course-badge is available for all who have completed the course through Fitech Network University. See all the courses offered by FITech at www.fitech.io and apply! After you have completed the course, you can apply for the badge in Open Badge Passport.

Apply for this badge

Add to favourites

- Enter your name and e-mail address to the application. **Use the same e-mail address as you used in your Studyinfo application. Also make sure that address is linked to your Open Badge Passport account so that your badge will later be linked to it.**
- 3. Wait for your application to be processed**
- Applications are processed (manually) at the university organizing the course. The processing times may vary between universities. Please do not send a new application if you don't hear back regarding your application. You can contact the organizing university or send an e-mail to info@fitech.io.
- 4. Accept the badge**
- You will get an email notification when your badge application has been processed. If your application was approved, go to the Open Badge Passport platform. You can click on the text "Get your badge" in the email.
 - After you have logged into your Open Badge Passport account, you can see the text "You have a new badge waiting" on the front page. Click on the text and you will be redirected to a page where you can either accept or reject the badge. You can also reach this page by choosing "Badges" in the top menu.

Welcome back, [REDACTED]

 You have a new badge waiting

- Choose "Accept badge".

5. Share your badge (e.g. LinkedIn)

- You can add your badge to your LinkedIn profile or share it through other platforms or through a link.
- To add your badge to your LinkedIn profile, click on the badge you want to share in "My Badges". Go to the "Social" tab and then under "Badge visibility", choose the LinkedIn icon.

- Choose "Add to profile". A new window will open and you are asked to log in to your LinkedIn account.

- A window including the badge information will be displayed. Fill in the missing information. You can find the information in the Open Badge Passport window which is open in another tab.

To link the issuing organization properly, click on the field and choose FITech Network University from the list. The icon will then be updated.
